INTERNET OF THINGS (IOT)

DEAR PARENTS,

In association with **J P World School Jammu**, **Inverted Prism** is pleased to introduce its **Career Exploratory US West Coast Program**. In the ever-increasing competitive world, there is greater need than ever before for our kids to be educated and trained for their **future careers and businesses**. This begins by giving them industry experiences, interactions with experts making them understand various subject / fields better and inspiring them for their future.

This Career Exploratory US West Coast Program for Grades 6 to 11 has been selected by the School, which will give the students an opportunity to do **Workshops / interactive sessions with top professionals** at **Apple HQ, NASA Ames Research Centre, Intel Museum, Tesla Motors Showroom, Autodesk Workshop, Science Exploratorium, Computer History Museum**, etc and get **University Campus Experiences** at **Stanford University, Berkeley University, Carnegie Mellon University, NY Film Academy** and much more.

In addition, students will also visit **Universal Studios, Grand Canyon, Las Vegas Boulevard**, etc. They will have time to shop at Premium outlets as well. Please find the details below:
